

HERMETIC GLOVEBOX

for documents and tools storage

The installed seal on the thread ensures waterproofness of the glovebox.

Possibility to attach any sticker or provide any silk-screen imprint.

Mounting holes prepared for easy installation.

The glovebox is available with side mounting.

Clever Storage

- Intended for use in outdoor conditions.
- Made of durable material, practical and roomy.
- Impact resistant.
- Resistant to oils, greases and fuels.
- The polygonal shape of the lid allows you to easily open the glovebox even when working in a wet or oily environment.
- Simple and quick installation.

Material: Polypropylene

Install the glovebox on your quad and always have tools at hand. The tightly closed housing guarantees that the items stored in it will be effectively protected against rain and dust.

A useful solution for storing necessary items during motorcycle trips.

Attention!
The product does not contain mounting screws and nuts.
The set includes two information stickers.

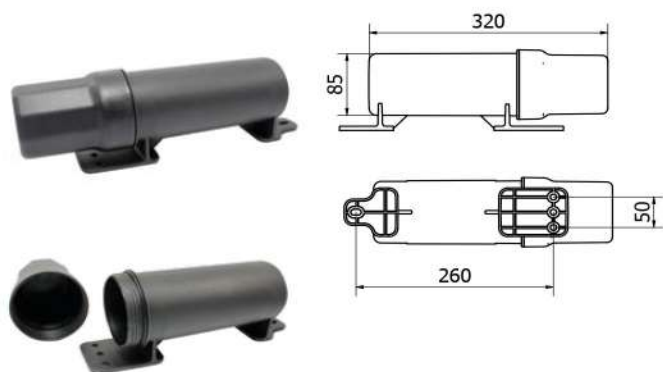

Universal screw-on document glovebox. All manual user instructions always within reach. Use of the product: agricultural and construction machines.
